

COMFORT AND
STYLISH DESIGN
COMBINED WITH
HIGH PERFORMANCE!

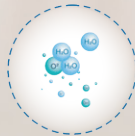

ALARKO
Flair
Silver

Healthy Environment with Colasma Air Purification Technology

It emits both
positive and
negative ions.

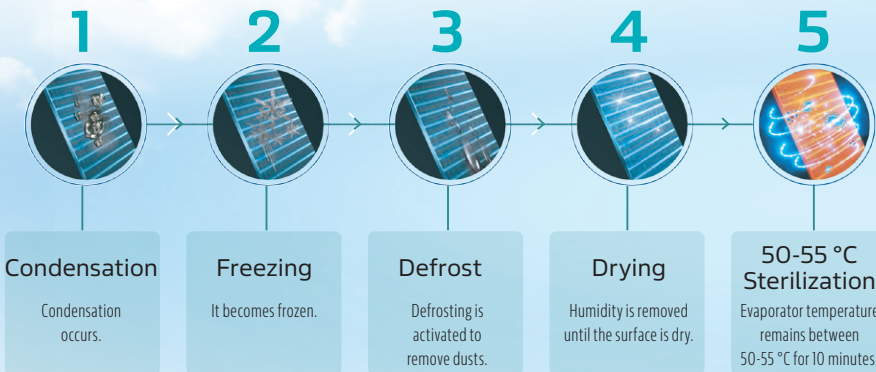

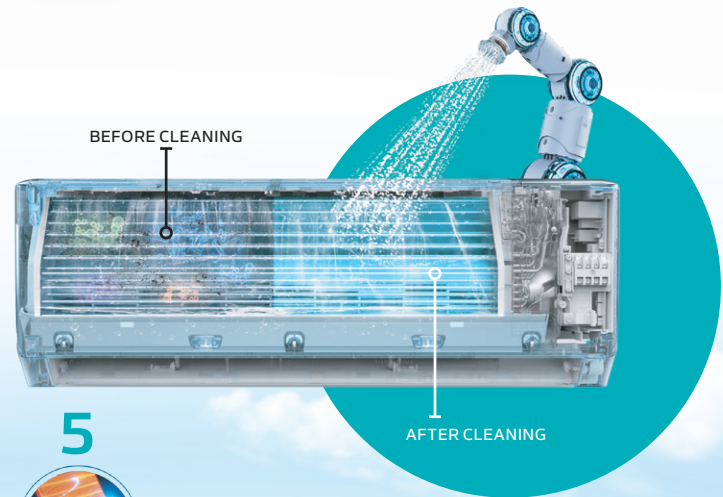

Form water
and release
to the air.

Self-Cleaning

It could be quite bothersome that the evaporator can very easily accumulate dust. Alarko Flair Silver Self Cleaning Technology keeps the evaporator clean in five steps for clean air flow.

3D Air Flow

The air guide louver can not only rotate up and down automatically, but also left and right. Provides 3D airflow for wider air supply to increase comfort.

I-Feel Mode

Is it difficult to adjust the temperature often? Now you just need to press a button to enjoy the comfort with the I-Feel function. With I-Feel function, the sensor temperature detection technology on the remote control can smartly detect the temperature around you. Within 10 minutes this data is automatically sent to the Indoor Unit, which afterwards automatically adjusts the temperature.

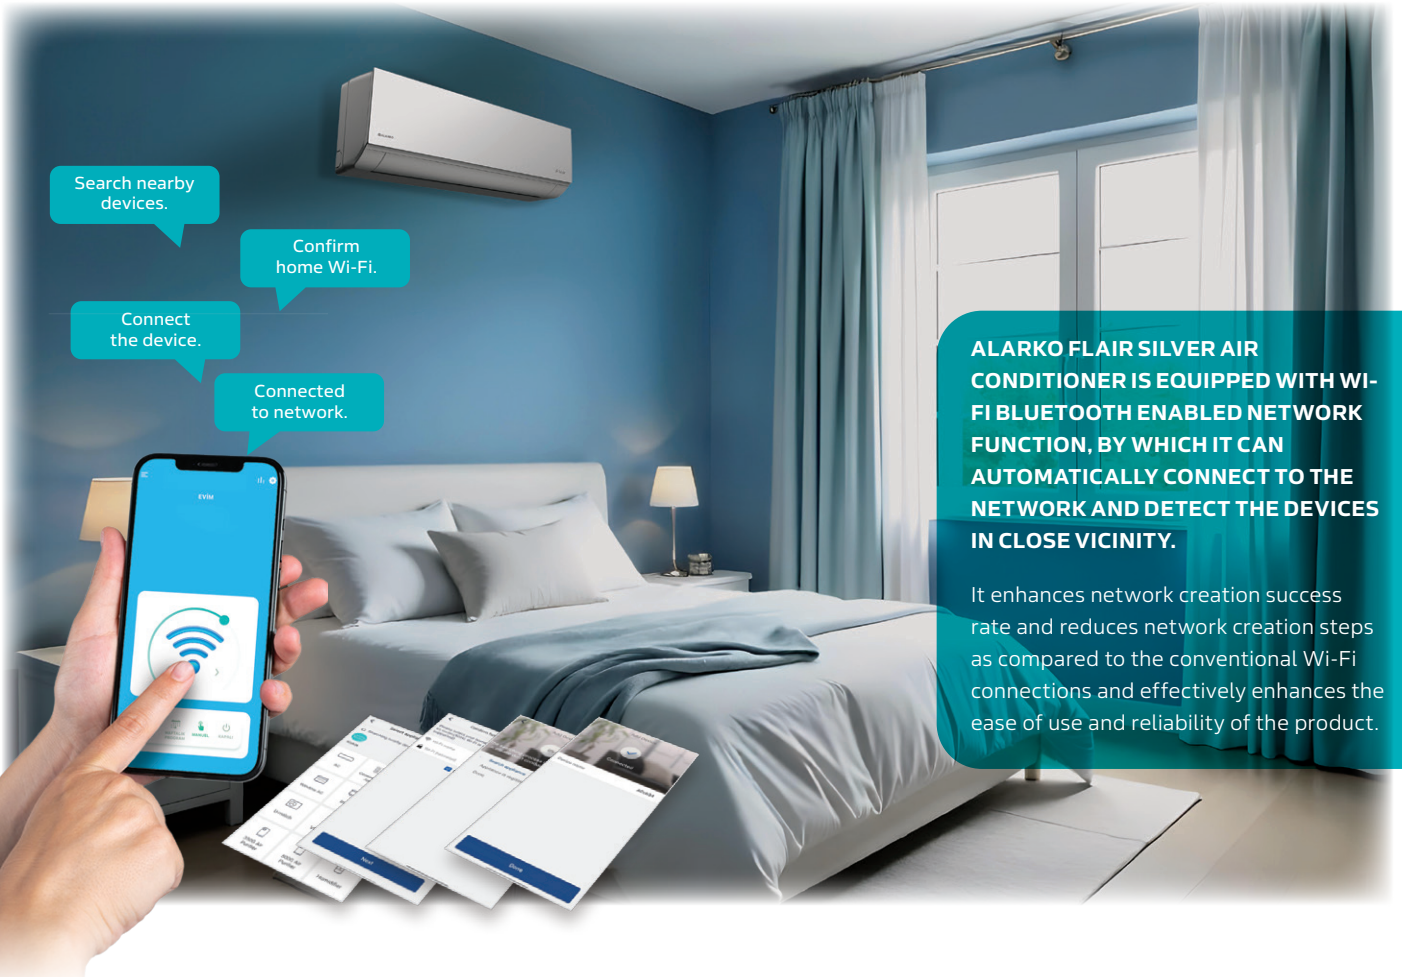

Temperature Adjustable in Auto Mode

After Auto Mode is selected, the unit can automatically adjust the temperature according to the detected ambient temperature. It's not required to switch to cooling or heating mode when there is high temperature difference.

Wifi Bluetooth

ALARKO FLAIR SILVER AIR CONDITIONER IS EQUIPPED WITH WI-FI BLUETOOTH ENABLED NETWORK FUNCTION, BY WHICH IT CAN AUTOMATICALLY CONNECT TO THE NETWORK AND DETECT THE DEVICES IN CLOSE VICINITY.

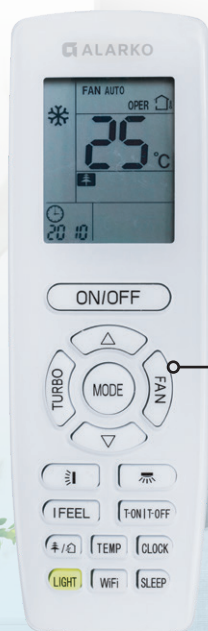

It enhances network creation success rate and reduces network creation steps as compared to the conventional Wi-Fi connections and effectively enhances the ease of use and reliability of the product.

Self-diagnosis

The Unit will automatically shut down in case abnormal operation or component failure occurs. Meanwhile the Unit will display respective protection or error code for fast service intervention.

7 Fan Speeds

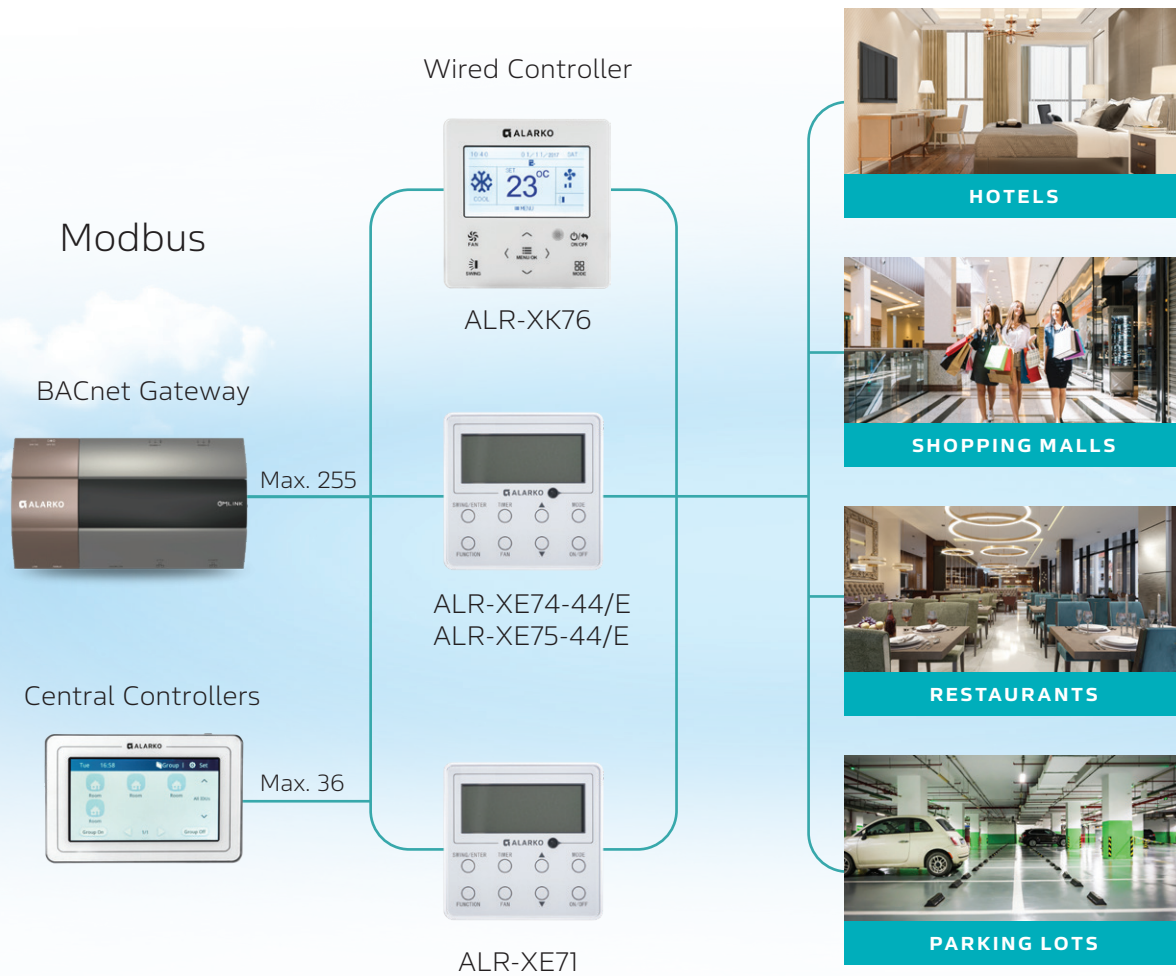

Fan speed can be adjusted with the remote controller. These 7 adjustable fan speeds (*silent / low / low-medium / medium / medium-high / high / turbo*) can meet various requirements. Turbo fan speed rapidly adjusts the room temperature and ensures that you feel the cooling effect immediately, whereas silent fan speed allows you to enjoy the comfort quietly.

Building Management System*

Smart Central Control, Convenience of Controlling Multiple Units Simultaneously.

Alarko Flair Silver can pair with the smart central controller and control start/stop, mode, temperature and timer functions for up to 36 units. Central controlling of up to 255 devices is possible by using the Building Management System (BMS) for large hotels, shopping malls, parking lots and other similar places.

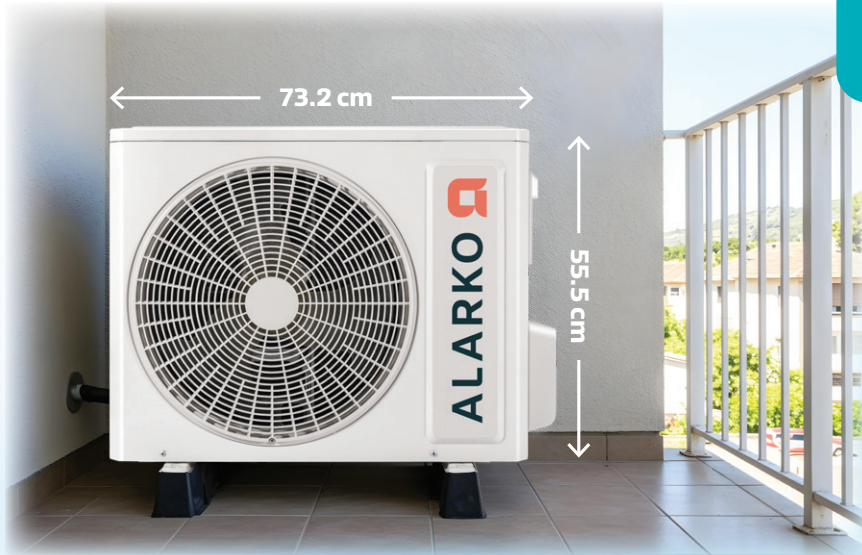

* Optional.

Common residential wired controllers ALR-XK76 and ALR-XE71 are compatible with BACnet building automation system as well in addition to the central controller device ALR-CE52.

Outdoor Unit

Size of Outdoor Unit is reduced by 32%, which now makes installation possible in even narrow balconies.

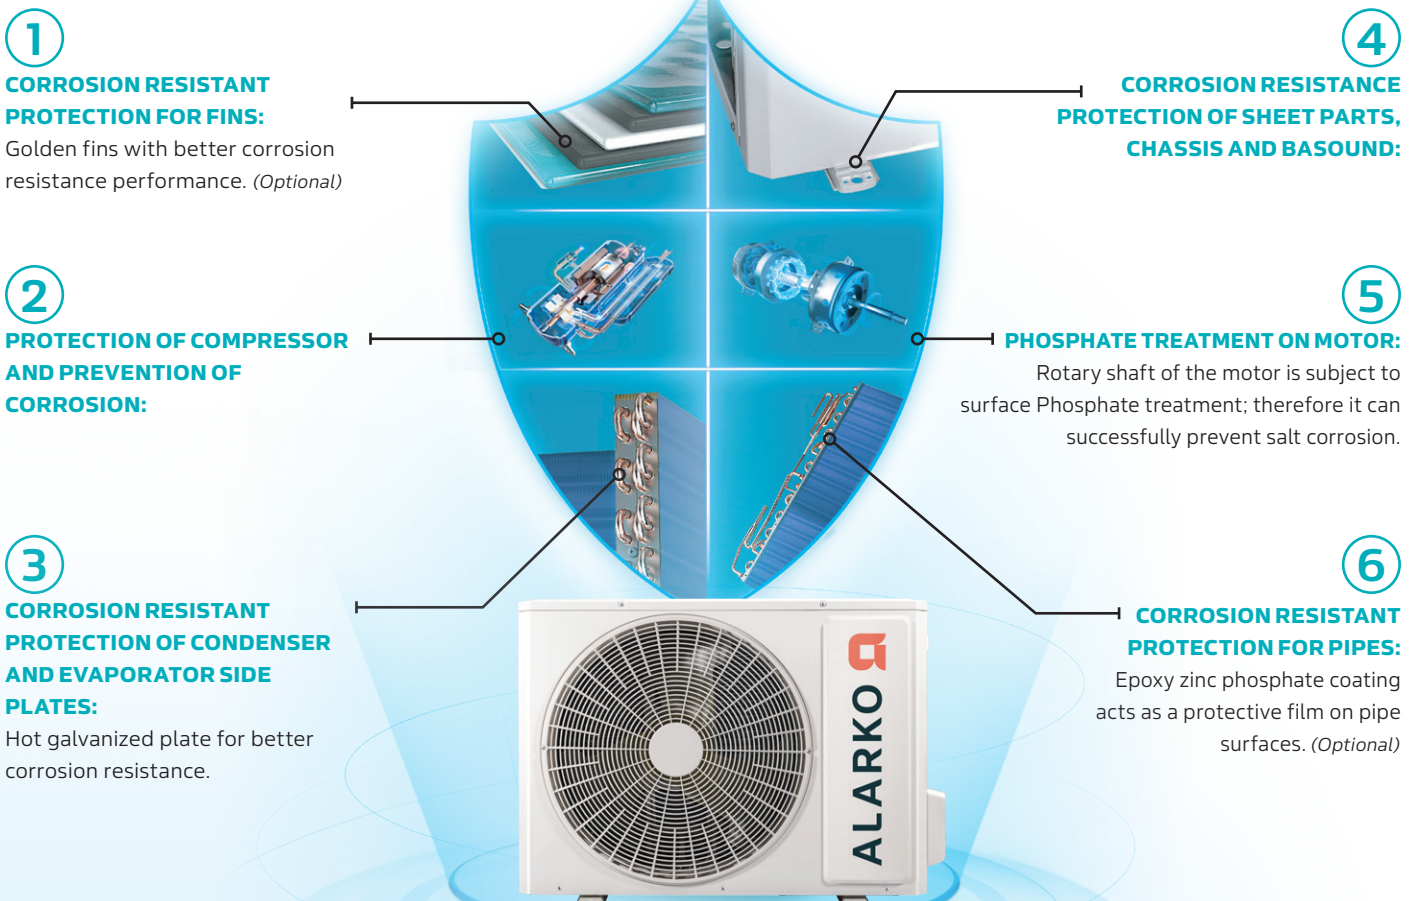

Easy installation and maintenance

Compact sizes

VERSATILE PROTECTION AGAINST CORROSION IN OUTDOOR UNIT!

6 corrosion prevention measures for longer service life and less maintenance:

 3D Air Flow	 LED Display	 7 Fan Speeds	 Quiet Design	 24-hour Timer	 Timer	 Child Lock	 Dry Mode	 Turbo Mode
 Wifi Control	 Three Sleep Modes	 Automatic Mod	 I-Feel	 Intelligent Auto-Restart	 Colasma Air Purification Technology	 X-Fan	 Indoor Unit Self-cleaning	 Auto Restart
 Wide Voltage Range	 Low Voltage Startup	 Self-Diagnosis	 Fire-proof Electric Box	 Refrigerant Shortage Protection	 Soft Start	 Cold Blow Protection	 3DC Inverter	 Multi-functional Filters
 Anti-corrosion Fin	 Anti-Corrosion Protection of Outdoor Unit	 Fast Cooling						

Features: Standard Optional

eco-friendly and high-efficiency products for a better world

We are investing in the future with our Alarko Flair environmentally friendly air conditioners. We use efficient and environmentally friendly products. We are aware that products with high energy efficiency are budget and environmentally friendly. We stand against global warming with products with R32 refrigerant. We turned our face towards green. We think green.
